Connect from your local machine

1 Configure prerequisites for SSH using Azure CLI

Azure needs to configure some features in order to connect to the VM.

Prerequisites configured

System assigned managed identity

Azure will configure a system-assigned managed identity in order to enable the Microsoft Entra ID login extension. [Learn more](#)

Microsoft Entra ID SSH Login Extension

The Microsoft Entra ID based SSH Login extension will securely connect to the VM using Microsoft Entra ID instead of SSH or a username and password. [Learn more](#)

Microsoft machines use no administrative login

Python

Simple Python program to calculate age in months

Get user input

name = input("What is your name? ")

age = int(input("How old are you in years? "))

Calculate age in months

age_in_months = age * 12

Print the result

print(f"{name}, you are {age_in_months} months old.")

What is your name? sea

How old are you in years? 17

sea, you are 204 months old.

Just now (10s)
